

CENTER CLIENT PORTAL

Perfect alignment
within reach

CENTER CLIENT PORTAL

CENTER CLIENT PORTAL is a unique web portal, that is linked to your existing Terminal Operating System (TOS / ERP) using Edifact and / or XML messages. Inland parties can pre-register containers and register import documents. In addition, it has extensive functionalities for agents, shipping companies and forwarders to create and manage orders and releases. Customers can manage their own access to the portal. This saves you considerable time and effort.

CENTER CLIENT PORTAL PRODUCT FEATURES

UNIVERSAL CONNECTIVITY.

Connects in various ways to both internal and external systems (EDI, REST APIs, XML, database connections, FTP).

MANAGE EDI INTERFACING.

- Manage the entire message flow and deal with any kind of exception.
- Process all EDIFACT messages and handle non-standard bilateral messages.
- Support customer specific requirements, our EDI system provides functions for transcoding data.

USER MANAGEMENT.

- Customers their own access to the portal. This saves considerable time and effort.
- User rights are role-based and integrated with your local active directory or making use of application-only users.
- Secure and flexible authorizatn possibilities to manage all your operations and terminal management.
- User authorizatn management is extensively simplified, by making all user options trackable from and for each separate module.

EXTENSIVE CUSTOMIZATION POSSIBILITIES. The look and feel of CENTER CLIENT PORTAL can be fully adapted to your corporate branding.

OPTIMIZED FOR MOBILE DEVICES. Can be used on IOS, Android and Microsoft devices.

USER-FRIENDLY DESIGN & INTERACTION.

Overviews are clear and easy to read. Entering and editing data is intuitive and quick.

NEAR-REALTIME OVERVIEWS AND DASHBOARDS.

AUTHORIZATION AT USER LEVEL.

BECAUSE COMMUNICATION IS EVERYTHING.

CENTER PRODUCTS MANAGE CRUISE, PORT, AND TERMINAL RELATED WORKFLOWS.

Our center product line consists of seven software products, that manage: "Terminal, Port, Freight-forwarding, and Agencies" related activities and workflows. The products can be used as standalone applications, a combination of CENTER products is also possible.
